Suicide Rate Among Adolescents at Highest Point Since 2000

Adolescents and young adults have seen the highest rate of deaths due to suicide in nearly two decades, according to a new report released by the Centers for Disease Control and Prevention today.

The suicide rate is consistently higher for males than females. . .

The Coalition for a Healthy Middletown works with community partners and focuses on prevention and youth – creating an environment that encourages and supports healthy decisions related to drug and alcohol use. Through a variety of activities and events we connect with our community.

Join us for a fun, free, and family-friendly game night. Bring your friends and family for a fun, relaxing evening of classic board games, card games, checkers, Scrabble, and others.

We'll have snacks, prizes, and more! Game Night is free and open to the public, no tickets required! We look forward to seeing you there.

Tuesday, July 16 6:30 - 8:30 p.m.
Triple Moon Coffee Company, Middletown

100 Deadliest Days for Teens

For many, the period between Memorial Day and Labor Day signals lazy pool days and barbecue-filled afternoons — but for others, the months when kids are out of school can bring grave danger. Here are the three biggest causes of teen-driving fatalities during the 100 Deadliest Days:
